Pump Up Your Proposals!

Win More, Stress Less

Ever find yourself at a point when you need to increase your customer base? Who doesn't!

Creating a winning proposal to pitch to clients can be challenging, even for seasoned professionals.

And during the creative process, time itself can be the biggest hurdle.

When business is good, there seems to be no time to step back and work on your own marketing.

When business is slow, it can feel like you're at a stand-still... at square one... trying to find more clients.

How do you get the wheels turning again?

Give Mindwalk Business Coaching's **Pump Up Your Proposals** coaching service **half a day** and you'll see a difference.

You'll have more confidence in your marketing approaches, sales will go up – with premium pricing, and your operations will run smoother.

IN-HOUSE COACHING GETS RESULTS

Mindwalk's unique approach is conducting coaching at the client's place of business, having face-to-face interaction. Our personal approach has been proven to get better – and faster – results than phone or web-based coaching.

During the **half-day session**, your Mindwalk coach reviews and analyzes your previous proposals and identifies ways to make them more persuasive. The results are discussed and a new or revised proposal template is created.

MOVING FORWARD TO SUCCESS

At the end of the half-day coaching session, your Mindwalk team member will leave a check list to follow when you're creating your next proposals.

But we don't leave you on your own. Your **Mindwalk coach will review your future proposals** any time within six months of your coaching session. **The results will be amazing.**

Mindwalk coaching clients, on average, experienced a 32% increase in their proposal 'win-rate', which expanded their businesses substantially.

"The coaching program was the best money we ever spent. The new proposal template we developed with the Mindwalk coach helped us win five new web design projects, and a top price. We probably would not have got those projects otherwise."

– T. Harper, Western Design Group
